

REFINED GLYCERINE

DEPENDABLE AND ASSURED QUALITY AND SERVICE

In 2010, after decades of experience in the vegetable oil refinery and biodiesel sectors, our company diversified into the refined glycerine sector using only vegetable oil based raw materials. Our refined glycerine is well-known for its high quality both domestically and internationally.

With robust and modern processing technology, our refined glycerine reaches at least 99.7% purity, in excess of global pharmaceutical standards such as USP, EP, BP and JP.

PRODUCTS

**Crude
Glycerine**

**Refined
Glycerine**
(Pharmaceutical
Grade)

**Technical Grade
Glycerine**
(Industrial
Grade)

“ Our refined glycerine is water-soluble, clear or colourless, odorless, viscous, hygroscopic liquid with a high boiling point. As it is non-toxic to human health and the environment, refined glycerine can be used in many applications. ”

EXAMPLES OF APPLICATIONS

Pharmaceutical : Cough syrup, oral capsules

Cosmetics : Sunscreen, lipstick, face masks

Household products : Soap, shampoo, toothpaste, mouthwash, facial wash

PACKAGING

TYPE	CAPACITY
Tank car	To customer requirements
HDPE drum	250 KGs
Steel drum	250 KGs
HDPE gallon	25 KGs
IBC	1.25 MTs
Flexitank	22 MTs
ISO tank	22 MTs
Bulk	To customer requirements

WHY CHOOSE OUR GLYCERINE?

Support sustainability

We can apply the RSPO certified sustainable standard to our raw materials.

Assured quality for a wide range of applications

Our refined glycerine can be used in the industrial, food, pharmaceutical, cosmetic and household sectors.

Traceable raw material

The sources of our raw material and our processes are recorded for food safety.

International standards compliance

Our products comply with many global pharmaceutical standards, such as USP, EP, BP and JP.

Professional service

Our professional and dedicated staff are well trained to handle our customer's requirements.

Free from GMO materials

Our pure palm oil based material is free from genetically modified organisms.

Your satisfaction

with our products and service is our goal.

QUALITY FOR LIFE

Patum Vegetable Oil (PVO) was established in 1975 and has become a market leader in the cooking oil, biodiesel and refined glycerine sectors in Thailand. We focus on providing premium products by using advanced technology, modern process facilities and world class quality management. We offer our products in a variety of containers and specifications to meet our customers' satisfactions.

HIGH INDUSTRIAL STANDARDS

Patum Vegetable Oil (PVO) continually improves quality through the Integrated Management System. This system covers the quality assurance of our products and services as well as encompassing social and environment-friendly measures. Our company has long been awarded certification for meeting international standards.
