- Skid tank / IBC
- Drum
- Others

## Export

- Flexibag
- ISO-tank
- Drum
- Bulk

## Consumer Product

- Tin / Jerry can
- Bottle
- Bag

# QUALITY ASSURANCE

All of our products are rigorously tested and quality assured at every step of the process. We monitor our raw materials, production processes, filling, packing, warehousing and distribution to ensure the high quality of our products.

## WHY CHOOSE OUR PRODUCTS ?

### Quality

Our top priority is quality.

### Reliability of supply

As the largest user of palm oil in Thailand our company has a large stockholding capacity. This ensures the continuity of our palm oil supply and its downstream products.

### Services

We can specially blend and formulate products according to our customer's specification.

### Reliability

We believe in quality, integrity and professionalism. We conduct our business to provide long-term sustainability.

## QUALITY FOR LIFE

Patum Vegetable Oil (PVO) was established in 1975 and has become a market leader in the cooking oil, biodiesel and refined glycerine sectors in Thailand. We focus on providing premium products by using advanced technology, modern process facilities and world class quality management. We offer our products in a variety of containers and specifications to meet our customers' satisfactions.

## HIGH INDUSTRIAL STANDARDS

Patum Vegetable Oil (PVO) continually improves quality through the Integrated Management System. This system covers the quality assurance of our products and services as well as encompassing social and environment-friendly measures. Our company has long been awarded certification for meeting international standards.
